COAST ROCKED BY QUAKE

Known Dead Reaches 12; Town Falls Mountain Village Nearly Destroyed; Area Is Isolated

LOS ANGELES—(AP)—A violent pre-dawn earthquake in the sparsely-settled mountains north of here, killed at least 12 persons today and left a mounting toll of damage and injuries.

As the first reports of eyewitnesses filtered out of the little town of Tehachapi, they painted a picture of a shattered business district, brick-littered streets and a wrecked hotel.

Doctors and nurses were flown in when ambulances met slide-blocked roads. They included not only civilians, mobilized by the Red Cross, but rescue crews from Edwards Air force base and the Navy's rocket testing base at China Lake.

Earth Rocks

Amateur radio operators heard by radio station KTRB in Modesto reported the earth rocked convulsively, debris tumbling into Main street in thunderous crashes.

Children and their parents rushed into the streets and crouched, stunned by the giant shaking. A large water tank crashed, flooding the area.

Another amateur quoted Carl Thurber of the Kern County sheriff's office as saying that he saw a large building collapse, with one house caved in and a family probably trapped.

In Sacramento, the state capital, State Civil Defense headquarters ordered medical equipment mobilized to fly into the area.

Tehachapi, with a population of about 3,000, is between Bakers field and Mojave. It is a little mountain town 4,000 feet high, many of whose residents work at the big Monolith Portland Cement Co. plant nearby.

There He Was...

John Gallagher, North Lincoln avenue, just didn't know quite what to make of it. Here he was 300 feet away from dry land, in his automobile and unable to move.

He attempted to drive through the deep water covering the flooded Page drive south of the armory Saturday afternoon. Unable to see the roadway he veered into the mud and finally became mired.

His four granddaughters in the car waded the 300 feet to shore along with him and then he called a wrecker which finally pulled him out.

Iran Torn by Riots Over New Premier

TEHRAN, Iran—(AP)—Iran's capital was racked by near-revolutionary violence today as Communist-strengthened Nationalist mobs rioted against new Premier Ahmad Qavam and the government struck back with bullets, tear gas and bayonets.

At least three persons and perhaps more were killed when government forces fired into a crowd of 2,000 trying to storm the Parliament building.

Countless numbers of demonstrators were injured or arrested. Troops charged into surging crowds with fixed bayonets, leaving bloody injured behind.

"Death to Qavam," the mobs shouted wildly, venting their fury at the new premier's declaration that a settlement of Iran's long and crippling oil dispute with Britain would be a chief aim of his regime.

Pair Injured

A Rock Falls woman and girl were injured in a single-car accident at 12:20 a. m. today on Rt. 30 near the Prophetstown road west of Rock Falls.

KNOWS PRESIDENT'S CHOICE—Thomas J. Gavin, Kansas City, Mo., alternate delegate who knows President Truman's choice for Democratic nominee, talks to newsmen at Democratic Headquarters after arriving in Chicago.

Gavin will cast Mr. Truman's vote, since the president does not plan to come to the convention until after a candidate has been chosen.

Sterling Mayor Leads Raid on Bawdy House

STERLING—Three women and four men arrested in a raid on a bawdy house here early Sunday are out of jail today on bonds totaling \$6,000.

The seven were charged with several offenses in connection with the bawdy house when brought before a justice of the peace at 1:45 a. m. Sunday. The case has been continued until 10 a. m. Thursday.

The house, situated at 510 Wallace st., was raided by Police Chief Ed. Onda, Capt. Harold Swartley, Mayor W. B. Wetzel, Sheriff Henry Hamilton and Deputy Boyd Kimmel. A petition for an injunction against the house is to be presented at a meeting of the city council tonight.

Those arrested gave the following names:

Bessie Pennington, charged with operating a house of prostitution; her brother, Otis Pennington, jr.; Vera Pennington and Juanita Jones, both charged with being inmates of the house; Clarence Geertes, also charged as an inmate, and Taxi Drivers John Van Natta and Vance Ammons, both charged with contributing to support of the house and soliciting for it.

The three women and Pennington are Negroes. They gave their addresses as Memphis, Tenn. The others were listed with Sterling addresses.

Geertes, who was injured in a shooting about a month ago in the same area, said he was a roomer in the house.

Charges filed against Bessie Pennington included selling liquor, soft drinks, cigars and operating a juke box, all without licenses.

Three minor Negro boys also were found on the premises.

'Democrats Will Never Apologize'

--Stevenson

Who Leads Us Is Least Important, Convention Told

By WILLIAM J. CONWAY
CHICAGO—(AP)—Adlai Stevenson, with talk of drafting him as a presidential nominee, told delegates today the party will never apologize for its 20th century leadership.

"Who leads us is less important than what leads us," the Illinois governor said in a prepared welcoming speech.

"What counts now," he said, "is not just what we are against but what we are for. . . . A man doesn't save a century or a civilization but a militant party welded to a principle can."

Needs Confidence

"I hope our preoccupation here," he said, "is not just with personalities but with objectives. . . . What America needs and the world wants is not bombast, abuse and double talk, but a sober message of firm faith and confidence."

Stevenson counseled that Democrats must not deny their errors or make excuses "where we have wronged the public trust." Then he added:

"But we will never appease, nor will we apologize for our leadership in the great events of this critical century from Woodrow Wilson to Harry Truman!"

"We glory in these imperishable pages of our country's chronicle," Stevenson went to the rostrum at the opening convention session amid growing draft-Stevenson sentiment. Former Sen. Scott Lucas of Illinois said, "We're definitely going to draft him."

Pennsylvania Support

Shortly after Lucas' prediction last night, a "personal choice" poll of the 70-vote Pennsylvania delegation was topped by Stevenson with 32 votes.

Stevenson discussed policies in his prepared address. He recalled that the "New Deal" was launched in Chicago at the 1932 convention.

"You commenced the greatest era of economic and social progress in our history with the nomination of Franklin D. Roosevelt," he said.

Then he offered this version of the Republican convention:

"For almost a week pompous phrases marched over this landscape in search of an idea, and the only idea they found was that the two decades of progress in peace, victory in war and bold leadership in this anxious hour, were the misbegotten spawn of bungling, corruption, socialism, mis-management and worse."

Beat to Death

"They captured, tied and dragged that idea in here and furiously beat it to death."

"After listening to our misdeeds for a while I was surprised the next morning when the mail was delivered on time. Our friends were out of patience, out of sorts and—need I add?—out of office."

Hot Day in Store Over Much of U.S.

By The Associated Press

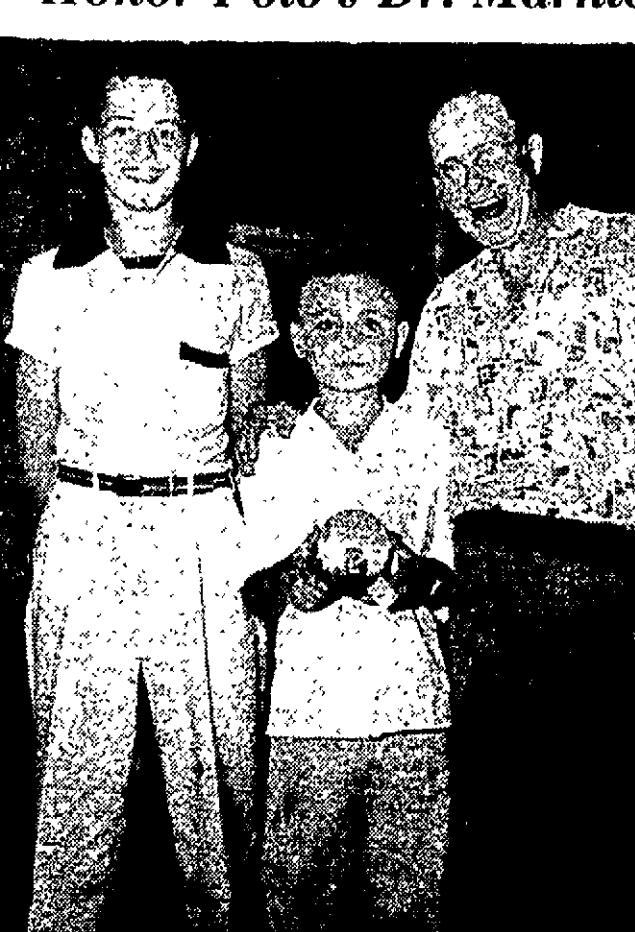

Another hot day was in store for most of the nation today. Little precipitation was expected, with widely scattered thundershowers bringing only temporary relief.

High temperatures Sunday were in the 80 and 90 degree range over most of the nation. Only the northern tier of states along the Canadian border experienced near or slightly below normal temperatures.

The weather bureau reported these high temperatures: Las Vegas, Nev., and Needles, Calif., each 107, and Garden City, Kan., 104.

The convention city of Chicago had a high of 95.

Honor Polo's Dr. Markle

DAVEY MARKLE, center, 11-year-old son of Dr. Fred Markle, Polo, holds the wrist watch presented to his father Sunday night at the conclusion of the annual Lincoln Highway golf tourney in Morrison. Dr. Markle has played in every Lincoln Highway meet—30 of them. At the left is Gordon Jorgensen, 17-year-old Clinton player. Dr. Markle recalled playing with Jorgensen's father, Edgar, many years ago in the Lincoln Highway meet—on the day after Jorgensen was married. (For details and more pictures of this year's meet, see the sports page.)

Dixon Man Held After Amboyman Dies in Crash

Charges of operating a car at unreasonable speed have been filed against a Dixon man as result of an accident early Sunday which claimed the life of an elderly Amboy man and injured two persons.

Dead is Charles A. Moyer, 60. The injured are Keeling W. Hobbs, 33, of 715 Third st., Dixon, against whom state police have placed charges, and Mrs. Julia Bell, 45, Amboy, a passenger in Moyer's car.

Still in Hospital

Hobbs, who suffered broken ribs, cuts and bruises, is a patient in Dixon Public hospital. Mrs. Bell, who is in Community General hospital, Sterling, with a fracture of the left wrist, cuts and bruises, was reported in good condition this morning.

The accident occurred as both cars were eastbound at 12:10 o'clock on Rt. 30 about 4 miles east of Rock Falls. The Hobbs car plowed into the rear of the Moyer auto after Hobbs had driven over a rise in the road.

Moyer died about two hours later in Community General hospital. He suffered a basal skull fracture and fracture of the left hip.

Swear in Jury

A coroner's jury has been sworn in, and an inquest will be held at Sterling as soon as Hobbs is able to testify. There were no witnesses to the crash other than those involved.

Hobbs was reported to have first turned left then right to avoid hitting the Moyer car, but oncoming traffic in the opposite lane and a ditch to his right halted the attempts to avoid the crash.

After the crash the Moyer car turned onto its side and Hobbs' auto plunged into the ditch.

Mr. Moyer is survived by a brother, Leo, Madison, Tenn., and a nephew, Roy Moyer, Dixon. Born March 30, 1889, he was a son of Charles and Margaret Moyer.

Funeral services are to be at 2 p. m. Tuesday in the Melvin funeral home, Dixon. The Rev. George Curran, pastor of St. Paul's Lutheran church, will officiate. Burial will be in Mt. Union cemetery, between Dixon and Grand Detour.

Lacks Nerve

ROCHELLE—Three Ogle county deputy sheriffs arrested a Huntington, W. Va. man three miles east of here at midnight Saturday as he was laying along the Burlington railroad tracks trying to get "nervous enough to attempt suicide."

William Jeffers, 34, who is employed as a railroad section worker in Chicago, was taken to Oregon where he was booked on a charge of vagrancy.

The Schedule

Here is the schedule of the Democratic convention for tonight and Tuesday. All times are Central Standard Time.

Convention Opens on an Uneasy Note

Gov. Stevenson Boom Continues Despite Protests

CONVENTION HALL, Chicago—(AP)—The Democrats came to the start of their 31st national convention today, pulling and hauling in uncertainty over platform and candidates.

As to the platform, it was again, as it has been for years, a North-South battle over "civil rights."

This sectional war threatened for a time to break out on the convention floor at the opening session in a scrap over seating of rival delegations from Mississippi and Texas. But convention leaders put the issue over for at least 24 hours by a program shift.

Race Wide Open

As to candidates, it was wide-open. Five hopefuls were working hard for the presidential nomination, and there were a dozen "favorite sons" in the field.

Gov. Adlai Stevenson, of Illinois, the man who has said repeatedly he doesn't want it, was still getting a lot of talk for the nomination.

The delegates, trooping into this bunting-draped arena at the stockyards, were certain of only one thing: They know Gen. Dwight D. Eisenhower is the man they must pick if the Democrats are to stay in power.

Douglas Hits Ike

Consequently, much of the oratorical fire of this warm-up convention session was turned toward the Republican presidential nominee.

Sen. Paul Douglas of Illinois, mindful of GOP attacks on the Truman administration's Korean policy, said in a prepared speech that the joint chiefs of staff had reported in 1947 that Korea had little strategic value to the United States.

He asked: "Now, who do you suppose was chief of staff of the army when this military advice was given? It was Dwight D. Eisenhower."

Down town, the platform-drafting committee was working on a document they hoped to present to the convention on Wednesday.

Plug for FEPC

Backers of a proposed Federal Fair Employment Practices Act were plugging for a plank pledging the party to seek a change in Senate rules so that FEPC could not be stopped by a filibuster. Southern senators have in the past beaten FEPC by prolonged debate which prevented it from coming to a vote.

Hanging over the convention is the threat that some southern delegations may walk out if they don't like the "civil rights" plank. A bolt in 1948 cost President Truman the 38 electoral votes of four southern states which gave them instead to a State's Right ticket.

The convention won't get around to picking its presidential nominee before Friday, at the earliest.

Wait for Sign

In the meantime, the delegates are waiting:

1. For a sign from President Truman as to whom he favors.
2. For some development which could turn sentiment toward one of the candidates now in the field, or possibly to some not yet mentioned.

Ogle Girl Scout Day Camp Starts Tomorrow

Ogle School Trustees to Act On Disposition of 3 Districts

OREGON—Disposition of three rural schools will be determined at a meeting Tuesday afternoon of the Ogle county board of school trustees.

The schools are Eureka, Burr Oak and Donaldson, all in the Polo area. A hearing on Donaldson's disposition will be held at 1 o'clock, on disposition of Burr Oak at 2 o'clock and on that of Eureka at 3 o'clock, all in the office of W. L. Pickering, county superintendent of schools.

The dispositions will be the first major business to be acted upon by the newly created and newly elected board of school trustees. School boundary disputes and petitions for annexation and detachment have been placed in the board's hands. Previously they went before the county court.

Eureka school will have a choice of annexation to one of two districts and Donaldson to any of four districts. Burr Oak district will be split, the northern part subject to annexation by Forreston grade school and the southern part by another rural district, either Brookville or Canada Settlement.

The Burr Oak split is required by provisions of the law which state that a rural district boundary to annex. The southern part of Burr Oak is in the Polo high school district and the northern in Forreston high school district.

Two districts which Eureka may be annexed by are Brand or Gradatum, the latter subject to annexation by another district in 1953. Brand previously had absorbed Excelsior school district and has doubled its original area.

Donaldson had its choice of annexation to Eagle Point, Doty, Canada Settlement or the Polo grade district.

FHA Names Delegate to State Meet

POLO — Miss Martha Hopkins, daughter of Mr. and Mrs. J. M. Hopkins, Polo, has been named by the Polo Future Homemakers of America as delegate to the Illinois State Leadership Training conference July 28-Aug. 1 at Bloomington.

Miss Hopkins will participate in meetings at the conference designed to teach ways of developing FHA chapters. The conference will be held at East Bay camp, Lake Bloomington.

A junior next term in Polo Community high school, Miss Hopkins is president of the Polo FHA and holds a junior homemaker degree. During the past year she has served on various committees of the local chapter and has actively promoted the organization.

The FHA is a national organization of high school pupils who have taken or are taking homemaking courses. About 550 delegates and 35 counselors from chapters throughout the state are expected to attend the conference.

Many From Mt. Morris Vacationing

MT. MORRIS—Many Mt. Morris residents are spending vacations in various parts of the nation.

NISTC to Use Heckman House For Classes at Lowden Park

OREGON—Northern Illinois State Teachers college has obtained permission from the State Department of Public Works and Buildings to use the Wallace Heckman residence at Lowden State park near Oregon.

The teachers college has exclusive use of the building until July 1, 1953, for instructional purposes in connection with its proposed plans for holding classes and conferences on the Lorado Taft field campus, which is adjacent to Lowden park. It has also been indicated that the college may use it after July 1, 1953, subject to future negotiations on the matter.

Dr. Leslie A. Holmes, president of Northern, has indicated that the college will supply labor to maintain the house and the state will supply the materials. This arrangement assures that the old home, built in a pioneer era, will be kept in good repair for at least the coming year and possibly longer.

The three-story mansion with approximately 20 rooms is one of the historic sights of the Rock River valley. For many years it was the home of the late Wallace Heckman, a prominent Chicago attorney who was responsible for the leasing of land to those in the Lorado Taft art colony.

The last members of the original art colony left the Taft area in Lowden park in 1942, and Lowden park was established by the state in 1944.

Three From Mt. Morris In Hospitals

Program for Area Groups Four Days

Oregon—Girl Scouts and Brownie Scouts from Oregon will touch off the first of four camping days for girls in this area tomorrow.

Sixty-five girls are scheduled to attend the first session starting at 9 a. m. at the Harold Ross farm near Mt. Morris. The girls all from Oregon for this first day, will meet at the Oregon Coliseum for transportation. They will bring a sack lunch, and milk will be furnished at the camp.

Those from Mt. Morris still wishing to attend may do so by contacting Mrs. Norman Jewett, Mt. Morris.

Mrs. Jewett and Mrs. Rue Hurd, Oregon, will be chairmen of the four-day camping session which is to run through July 25. Mrs. Hurd will also be general chairman and have charge of handicraft.

Other area Scouts from Durand, Rockford, Poplar Grove, Belvidere, Byron and Winnebago will participate as members of the Rock River council.

The leaders from Oregon, for Tuesday, will be:

Mrs. Virginia Shelter, Mrs. Agnes Simmons, Mrs. Zoe Englebrecht, Mrs. Betty Klassen, Mrs. G. W. Meeker, Mrs. Sally Knight, Mrs. Ruth Ingraham and Gretel Anne Heuerman.

Friday, July 25, the last day of the camp, will be "Parent's Day" with a special program being furnished.

Nelson Woman's Brother Owned Death Cottage

NELSON—The brother of a Nelson woman, Raymond Jones, Rockford, was the owner of the cottage which was swept away by flood waters of the Rock river Friday resulting in the death of a Rockford woman and her grandson.

The cottage near which Mrs. Olive McGruder, 43, and Charles Edwin Warren, 7, drowned is located next to the Jones home. The boy's mother, Mrs. Elsie Gurley, 27, Dyersburg, Tenn., was saved after she clung to a tree in the yard next to the Jones' home for four hours to keep from being washed away.

Part of the Jones' home, on Pelley road, was also washed away in the flood and his two cars were seriously damaged.

Jones is the brother of Mrs. Fred Janssen, Nelson. The Janssen family left here for Rockford Saturday after learning of the tragedy.

Nelsonite Hurt In Mishap

NELSON—A Nelson farmer, Martin Branch, is walking with the aid of crutches today as a result of an accident last Wednesday which occurred as he was leading his cow from pasture.

The cow apparently dragged him a short distance, tearing the ligaments in his left knee. He was taken to the Dixon Public hospital where the leg was placed in a cast.

Pawpaw Notes...

PAWPAW—Mr. and Mrs. Walter Gibson, sr., and daughter, of Indianapolis, have been visiting at the Walter Gibson, jr., home.

Janice Rosenkrans, Bonnie Grove and Jimmy Moorehead attended the Methodist Youth camp at New Lenox last week.

ON TEN-DAY FURLOUGH MT. MORRIS—John Steed, airman third class, is home on a ten-day furlough from New Castle Air force base, Wilmington, Del. He is assigned to the finance department of the base.

NO SUBWAY THIS—This picture was taken in San Antonio, Tex., and it looks as if the city is getting a new subway. On the contrary, instead of being a subterranean tube, the "subway" is the high-flying upper deck of the Air Force's XC-99. That's the cargo-carrier version of the B-36 bomber. The huge ship, 182 feet long, with a 230-foot wingspan, routinely carries a payload of more than 100,000 pounds.

South Places Democratic Party on Hot Spot Again

By JAMES MARLOW

CHICAGO—(AP)—The South has the rest of the Democratic party in a tough spot. It's in a position to throw its weight around. It's doing that.

At least five southern state delegations have an arrangement by which, in effect, they can go home if displeased with what happens here and refuse to support the party nominee and his platform.

When the southern States Righters broke from the Democrats in 1948, splitting the party, they took 39 electoral votes from President Truman. He won anyway.

This year the Democratic party—under no illusions about the kind of fight it faces from the Republicans, headed by Gen. Eisenhower—may not be able to afford the loss of any southern electoral votes.

Ike After South

Eisenhower will try to win some southern states, even if the northern and southern wings of the Democratic party stand firmly together. His chances will improve if there's a Democratic split or even if the southerners merely return home angry from Chicago.

Since this convention has to think twice about irritating the southerners, it may try to mollify them.

At this moment there's a to-do over the kind of civil rights plank the convention will approve. But convention promises on civil rights have had practically no meaning; that is, in terms of promises translated into action.

Even though it wins the elections, it's almost impossible for the Democratic party to pass civil rights laws in congress:

1. This convention can't tell the 96 senators—made up of Republicans, northern Democrats and southern Democrats—what to do in the U. S. senate.

2. The senate rules are so weighted in favor of the southerners, in a civil rights dispute, that they can filibuster to death practically any attempts to pass civil rights legislation.

All Know Difficulty

Both factions know the gigantic difficulty of passing civil rights laws. If there was a convention must-up over civil rights as a matter of principle—on both sides—it would be understandable. The southerners would certainly be consistent in their opposition for the sake of principle.

But, otherwise, there's no practical reason for a convention bust-up on civil rights, in view of the almost insuperable handicaps in the way of getting civil rights bills through the senate.

Cite Reasons

It may be that southern leaders, knowing the South's importance to the party this year, want to put a damper on civil rights talk in the party platform.

Or it may be that, coolly know-

UN, Reds, Talk For 20 Minutes

MUNSAN, Korea, (AP) — United Nations and Communist armistice delegates met in secret for only 20 minutes today and adjourned without any apparent break in the protracted deadlock over exchange of war prisoners.

They scheduled another executive session for 11 a. m. Tuesday (8 p. m. Monday CST) at Panmun-jom.

Wartime LSM Blessed For Missionary Journey

VICKSBURG, Miss.—(AP) — A ship designed for dumping tanks and troops on enemy shores was blessed today as a peacetime weapon for God.

The converted Navy LSM, its equipment and a crew of "technical missionaries" is a million-dollar project aimed at spreading Christianity and prosperity through an African jungle.

It's the most ambitious project thus far by millionaire manufacturer Robert G. Letourneau of Peoria, Ill., who supports his interest in religion with about 90 cents of every dollar he makes.

Need For Food

The project, blessed also by the State department, is backed by Letourneau, 63, a bald, bespectacled heavily built businessman who thinks it's foolish to try to convert natives to Christianity while their bellies cry for food.

Equally foolish, he thinks, is the "handout" system, which creates "Rice Christians"—the missionaries' wry term for natives who stay converted as long as the mission will feed them.

Instead, Letourneau plans to clear the jungle with heavy machinery, build villages, roads and

PROFITS wear overalls these days

Profit to some people is a word that wears a high silk hat. The communists foster that idea. They get along without profits. They also get along without almost everything else.

They don't understand that profits wear overalls. If they had some profits, they'd also have some prosperity and payrolls instead of slave labor. Because profits work harder than anyone.

Here's why:

Last year the Illinois Central made a profit of \$18 million. From that profit and profits saved from previous years we took \$29 million to improve the railroad and pay off part of the mortgage.

There's no silk hat on profits that buy tools for workers to do a transportation job for you and thereby earn \$164 million a year in wages.

If our profits drop too low or become losses we run short of working dollars. We enjoy no backlog of government subsidies — no publicly owned airports or highways or waterways. We're on our own, and we pay taxes (\$28 million a year) besides.

When subsidized highway, air and waterways transportation cuts into our business, it costs you tax money and may cause us to need higher rates.

We say the cheapest way for you to get good transportation is to let us all — rail, air, highway and water carriers — compete on an equal basis. Free competition such as this has made us the most prosperous people in the world.

A Change of Heart by France Is Not
the Way to Ike's Heart

From Europe come reports, disquieting if true, that France is sliding away from her earlier enthusiasm for a European army and now favors a more nationalistic tie-up with England.

The cause for such an action would not be hard to see. France looks with increasing concern upon the continued resurgence of her ancient enemy, Germany, as a European power.

France realizes at the same time that the rise of Western Germany, at least, is due in some part to the United States, which has striven hard to get the Bonn Republic to take a strong place in the European army.

So, seeking some balance against the growing power of Germany, France reportedly is tending toward ties with England, which has stood firm in its position not to join a European army.

This shift in attitude on the part of the French, if such it can be called at this stage, comes at a strange time.

It might be thought that following General Eisenhower's nomination for the presidency, the prestige of that favorite American of the French would make itself felt in sentiment favoring Western European union, one of his favorite programs.

Certainly, if Eisenhower should be elected in November, Western Europe could expect to have an American chief of state as sympathetic to their problems as President Truman has been. And certainly France knows that the way to a man's heart is not by slighting his pet projects.

Golden Chance Doesn't Pass Him By

They've discovered gold again. And naturally, it's at one of the most inconvenient places in the whole Western hemisphere. Why can't gold ever get itself discovered some place where man doesn't have to practically kill himself getting at it?

Klondike, Yukon, Leadville. And now the latest place in this part of the world is on the Jari river in one of the wild-est sections of wild Brazil.

But thousands of adventurers are streaming into the area. To get to the gold country they have to fight their way for three weeks up a river that has 22 waterfalls and rapids.

The area is just north of the Equator and abounds in all kinds of tropical life like malaria and similar fevers. The jungle must be fought and conquered as if it were a living thing.

The wildlife is both wild and lively. Here is the home of the anaconda, believed by some to be the world's largest snake. It reputedly reaches a length of 30 feet and more.

One of the smartest operators in the Brazil gold rush is a citizen named Alculumbre. You don't catch him battling anacondas and waterfalls and malaria. He stays back in a relatively comfortable town and stakes the glory boys who are doing the real hunting.

When they come back out he collects his percentage from their strikes. So far, he's supposed to have 80 per cent profits on investments totalling about \$50,000.

Alculumbre seems to have the system, all right. At least until they get around to discovering gold right beside that new hotel at Third and Pine streets where a man can get a cool bath and a good night's sleep after a hard day of prospecting.

Outdoor Parties Are Not
What Magazines Paint Them

About this time of year the decorating magazines are filled with articles on what they usually refer to as "outdoor living."

For all their seductive phrasing and beguiling pictures, "outdoor living" isn't the simple way of life they paint.

They ignore so many things in their entrancing articles.

One—The neighbors' children. An outdoor party, in the average neighborhood, attracts kids like a display of fireworks. There goes that wonderful privacy that according to the article is so easily achieved in outdoor living.

Two—Uninvited guests from the insect world. In the tempting articles about outdoor living, there is never any mention of flies, mosquitoes, chiggers and the like.

Three—The little chore of getting food outdoors, and all the equipment back in. This more than makes up for the easy informality of serving outdoors.

OUTDOORS BRINGS OUT
TARZAN IN CHILDREN

Four—The hosts' and hostesses' own children. There seems to be something about outdoor entertaining that brings out the Tarzan in even the best behaved children.

And it is more than a little disconcerting to try to carry on a conversation with Junior swinging

from the limb of a tree and yelling: "Watch, I'm going to jump."

Five—The weather. Plan a party too big for your living room in the fond hope that you'll be able to have it in the yard, and you've done your utmost to break a drought.

And if there is ever a more harried hostess than the planner of a would-be lawn party, trying to have an indoor picnic for a hungry crowd, you should nominate her for Harried-Hostess-of-the-Month.

There are eight valuation zones, with Zone 1, the "bullseye" zone, containing two other classifications, commercial and sub-commercial.

Some Exceptions
There are some exceptions to this zoning rule, according to Handell. Residential and church property within the commercial and sub-commercial zones are exempt from the rates existing in those zones. Land values in those exceptions are computed on the 21.3 cents a square foot rate established for Zone 1.

Assessor Handell maintains there are few exceptions to this zoning tax valuation plan. Thus a taxpayer should be able to determine if he has been over-assessed—or under-assessed.

Here's Method by Which
Dixon Township Assessor
Computes Tax Valuations

Accompanying this story is a map of Dixon township showing the "zone method" with which land values are established by Dixon Township Assessor A. C. Handell.

It forms the basis for tax valuations which were applied to township land in 1951 and again this year.

It depicts the "system" by which Assessor A. C. Handell hopes to equalize the land values within the township, a "system" which has brought widespread misunderstanding and a goodly number of complaints.

Assessor Handell's "system" will be up for scrutiny by the Lee county board of tax review now meeting in the Lee county courthouse.

It's the board of review's job to hear complaints of Lee county taxpayers and then make a personal survey of the property in question to determine if the taxpayer has a legitimate gripe.

Let's Take a Look
Now let's take a look at the map and attempt to visualize how Assessor Handell has computed the valuations on your property.

First you must remember that the map pertains only to land. Improvements on the land are added to the land value to complete the valuation upon which you pay your city, township and county taxes.

There are eight valuation zones, with Zone 1, the "bullseye" zone, containing two other classifications, commercial and sub-commercial.

Some Exceptions
There are some exceptions to this zoning rule, according to Handell. Residential and church property within the commercial and sub-commercial zones are exempt from the rates existing in those zones. Land values in those exceptions are computed on the 21.3 cents a square foot rate established for Zone 1.

Assessor Handell maintains there are few exceptions to this zoning tax valuation plan. Thus a taxpayer should be able to determine if he has been over-assessed—or under-assessed.

For example, if you live in Zone 2, take the number of square feet

in your property, apply the 16.9 cent rate for each square foot. That gives you the land valuation. Add to that the worth of your "improvements" i.e. house, store, garage, etc. This figure has not varied from other years, Handell claims.

Now Apply Rate
And now you have your TOTAL VALUATION for tax purposes. If you live in Dixon, you just compute your tax at the rate of \$2.69 a hundred dollars of valuation. Your total should be that on your tax bill. Otherwise you have a gripe, or should be thankful, whichever the case may be.

The commercial zone is the downtown business district and the sub-commercial zone extends along the south river bank from Noble avenue in the east to just past Monroe avenue in the west.

Land in the commercial zone has a property value of \$2.32 a square foot. The sub-commercial zone, 53 cents a square foot, and the area outside of those two classifications in Zone 1 has a tax valuation of 21.3 cents a square foot.

List Valuations
In Zone 2 (see map) the per square foot valuation is 16.3 cents per square foot; Zone 3 is 13.7 cents; Zone 4 is 8.4 cents; Zone 5 is 4.6 cents; Zone 6 is 3 cents; Zone 7 is 2.3 cents and Zone 8 is 1.3 cents.

How did the assessor arrive at these figures? According to the assessor, he averaged all the previous land valuation figures in the respective zones and then divided that figure by the number of square feet in that given area. That results in the valuation per square foot, applicable to every square foot of land within the zone.

It is well to remember that the square foot rate applies to your land whether or not it is situated on a desirable corner lot or whether it has a gulley running through it; whether it is vacant or the site of an income-producing building. The valuation of the improvements, home or building, is something added to the land value.

Questions and
Answers

Q—What is the length of the boundary line between the United States and Mexico.
A—Approximately 2013 miles.

Q—What British tradition is kept alive by hat-tossing in the House of Commons?
A—A shiny old top hat hangs on a peg beside the speaker of British's staid House of Commons. If a member wishes to gain the age-old privilege of breaking into proceedings with a point of order, he calls for this hat which must be worn.

Q—What is the origin of the word "butler"?
A—The domestic servant in charge of the wine cellar years ago was called the bottler. This is the origin of the English word, "butler."

Q—Where do bats build their nests.
A—Bats do not build nests. They merely hook the claws of their hind feet into a wall or ceiling and hang upside down. Any cave, hollow tree or building will do.

Q—When did Alaska become a United States territorial possession?
A—Alaska was purchased from Russia in 1867. It was called a district until Aug. 24, 1912, when it became a territory.

WESTBROOK PEGLER

Pegler Concludes That Our Two-Party System Is Rotting Away and Socialism Is Rapidly Replacing It

(Copyright, 1949 King Features Syndicate, Inc.)

CHICAGO—In the United States, as in Great Britain, the two-party system is rotting into a corruption which may serve as fertilizer for the growth of something better. However, the tendency suggests adaptations of National Socialism. It is a fascinating irony that this new thing is nowhere more popular than in the city of New York where the foulest epithet is "Nazi-minded." But to be "Nazi-minded" is merely to believe that National Socialism is a desirable system and Socialism certainly is very popular in New York. It is difficult to distinguish between National Socialism and International Socialism, but New York obviously prefers the international kind. The entire eastern campaign against Senator Taft was based on the charge that he was an "isolationist," meaning a patriot. It was so effective that he had to deny that he was an unconditional isolationist, or patriot. He was moderately international.

The Churchill government of Britain will not live out its term because it regained the mandate on promises to de-nationalize the trucking industry, which the Socialists had converted into a government monopoly with a great bureaucracy on the public payroll, and clean up the state medical service, among other changes. But Churchill has been afraid to de-nationalize nationalized or socialized industries because nobody wants to buy back institutions whose employees have been made lazy, impudent and careless by the trucking treatment they received from an apple-shining administration which wanted their favor. Moreover, there is always the risk that the Socialists, on their return to power, will simply nationalize, or socialize, the same industries right back and this time will make very hard terms with the proprietors to warn any remaining stout anti-Socialists not to try it again.

Anyway, few Britons now have any money above their daily needs, so Britain is licked and is never coming back, except perhaps in some new combination of European powers. She is not very hostile to Communism and Soviet Russia, either, and the people would much rather make a deal with Moscow than fight or let us use their island as an airplane carrier, and they are markedly indolent, negligent and fatalistic. Religion and morality are way down.

dies for his moral credentials, and organized an "investigation" of "lobbying" to stop the circulation of Flynn's book. It was too true for the comfort of the eastern, international Socialists. Old Doc Edward Rumely, who runs a small pro-American propaganda bureau, actually was sentenced to prison for refusing to spread on the public record the names of all who had bought cut-rate copies of Flynn's biography, but the Supreme court, surprisingly, had an honest hour and reversed the judgment, setting him free. Buchanan died but not soon enough to spare himself the ignominy of working to the shadows. And these people never got the list unless they stole it out of Rumely's office, which is likely, such being their method. I don't know what they plan to do to these Americans for daring to read an anti-Socialist book, but persecution through business pressure, boycott and slander is their readiest weapon.

In Britain, the Conservative element has almost blown away. This just means that the people have been seduced into Socialism by the same temptations of Social Security and "free" money, food, tuition and so forth that have captivated millions of Americans who would abuse you for telling them this was Socialism. They outnumber the people who know what the Constitution says and means by thousands to one so there is no chance to repeal any of this stuff. Therefore, we too are going absolutely Socialist in a few years.

When I say our two-party system is rotting into a corruption, I am speaking of the anti-Republican on the Republican roll, Wayne Morse, of Oregon, Margaret Chase Smith, of Maine, Governor Warren, of California, Lodge and Saltonstall, of Massachusetts, Ives of New York, and of course, Dewey, are Republicans no longer. Their stuff is New Deal Socialism and they are smart, having recognized an irresistible trend. It was the evermore-dramatic Socialism of the City of New York that got Dewey. He tried honesty, fairness, integrity and even patriotism and never got a nod. The true type is a New York City congressman named Javits. He is officially a Republican but his program is left-wing New Dealism. Southern Democrats are trifling with the Republican party but it is nonsense to think they will ever vote against Socialism. They have an ignorant hatred of the label but they like the stuff.

4-H Girls Model in Clothing Achievement Day in Ashton

Two hundred twenty 4-H girls proudly modeled and displayed their completed 4-H dresses and various other costumes at Lee County's 4-H Clothing Achievement Day held in Ashton, Friday, July 18.

Clubs were judged by groups at sessions which started at 9:15 a. m. and lasted until 12:30 p. m. Three home advisers served as judges, offering help and suggestions to the girls in regard to their clothing construction. The home advisers were Alfretha Dickinson, Dorothy Giese and Bertha Varnum of Winnebago, Whiteside and Ogle counties respectively.

At the public revue starting at 1:45 p. m. in the Mills-Petrie Memorial building, the clubs were introduced by their leaders who described each club member's dress as she modeled it.

Outstanding Groups

The judges named a group of 25 outstanding 4-H costumes which were made by the following girls: Janet Sheaffer, Beverly Brown, Verna Adams, Donna Ackland, Kathryn Gates, Lorraine Hockman, Wilma Miller, Anne Bollman, Lois Starks, Karen Vaupe, Helene Adams, Norma Place, Theodora Rosenkrans, Dorothy Ransom, Bernice Truckenbrod, Joyce Norden, Carol Shippert, Shirley Angier, Kay Fritts, Shirley Engelbrecht, Gayle Sharp, Sue Browder, Joann Ortiguesen, Phyllis Holderman, and Patricia Greenfield.

The first five girls named will be Lee County's 4-H representatives at Illinois State Fair, August 12-15, and will model their dresses at State Fair. Lorraine Hockman will be Lee County's alternate who will attend classes only. Sub-alternates were also named. They are Wilma Miller and Anne Bollman.

The three 4-H costumes that will be sent to State Fair for their excellence of construction were made by Helen Adams, Lois Starks and Karen Vaupe.

Next Dress Revue

Lee County 4-Hers will again have the opportunity to participate in a public dress revue during the 4-H show which will be held in Dixon, August 26. This revue will be in the Armory.

Flower arrangement exhibits were judged by Mrs. J. Fred Nicholson, Jr., Amboy, who named Karen Vaupe as Lee County's representative to work in a Flower Arrangement booth at State Fair. She will demonstrate her work before the public.

Dixonaires Plan to Have Own Club Room

The "Dixonaires" held their regular monthly meeting recently at Loveland Community House. Members present discussed the possibility of having a private club room or hall, and decided that it was advisable because of the accumulation of club properties. Dick Worley was appointed by President Jerry Greasby as chairman of the house investigation committee. As members of his committee, Dick named Mrs. Lynn Whittenbaugh and E. C. Porter.

It was decided by the club to elect a three member nominating committee whose duties are to nominate five "Dixonaires" to serve on the advisory board. The advisory board will work with the officers and draw up the by-laws of the organization. The nominating committee elected by the club consists of Chairman George Hooper; Miss Neva Heckman and Mrs. Larry Ryan. Election of the board will be held at the Aug. 7 meeting.

President Greasby announced the need for regular weekly script meetings and requested volunteer hostesses. Responding were: Mrs. George Hooper, Mrs. Lynn Whittenbaugh and Mrs. Clarence Bush.

The meeting at Mrs. Hooper's home was held at 6:30 p. m. July 6, and the script session at Mrs. Whittenbaugh's home took place at 6:30 p. m. July 13. Any interested "Dixonaire" is invited to attend these meetings. A recent one was at the home of Mrs. Clarence Bush, 212 North Galena av., Sunday, July 20, at 6:30 p. m.

Miss Anne Arnold was appointed membership chairman and was requested to notify all Dixonaires of each meeting in the future. She named Miss Peggy Rhodes as her assistant.

"Four children" entertained the group by singing and dancing to "Schooldays." They were Joan and Jerry Greasby and Beverly and George Hooper, accompanied at the piano by Mrs. Darrell Coakley.

Refreshments were served by Mrs. Dick Worley and Miss Neva Heckman. For the remainder of the evening, popular selections were played by Dick Worley, trumpet; Cliff Porter, guitar, and Jerry Greasby, piano.

At Plum Hollow

Regular Ladies Day will be held Tuesday at Plum Hollow. Tee off time is 1 p. m.

Many Honor Coopers for Anniversary

Nearly 200 guests honored Mr. and Mrs. Lester Cooper, 317 Monroe av., Sunday afternoon from 3 to 5 o'clock in celebration of their golden wedding anniversary.

The backyard of the Cooper home was the party setting. Fifty yellow roses decorated the buffet table from which dainty refreshments were served. Mrs. William Cooper served the coffee and Miss Sandra Hines, Morrison, presided at the punch bowl. Mrs. Russell Mosher was in charge of the guest book and Mrs. Russell Cooper, Dixon, and Mrs. Irvin Hines, Morrison, served the two tiered anniversary cake.

Decorating the gift table were miniature bride and groom dolls placed under an arch that was graced with a gold 50.

Five Generations

Highlighting the anniversary open house was the presence of five generations of the family, pictured on this page. Also present were Mrs. Cooper's sister, Mrs. Violet Cooper, Rockford; Mrs. Lydia Heaton, Polo; and Mrs. Carol King, Mrs. Betty Diamond and young Cindy Diamond all of Rockford, another five generations. The Coopers who have two sons, Russell and Herbert, Dixon and two daughters, Mrs. George Scott, Dixon, and Mrs. Irvin Hines, Morrison. They will be wed 50 years on July 24.

Polo Newlyweds To Reside There

MT. MORRIS — Miss Dorothy Bickler, daughter of Mr. and Mrs. Archie Bickler, Egan, became the bride of Robert Albright, son of Mr. and Mrs. William Albright, Polo, in a double ring ceremony recently at St. Mary's church, Polo.

Matron of honor was Mrs. Glenn Fowless, Polo, and Miss Darlene Highbarger, Egan, served as maid of honor. Glenn Fowless was best man while Russell Bickler, Egan, was groomsmen. Lucia Lynn Fowless, niece of the bridegroom, was flower girl, and Steven Bickler was ring bearer. Kenneth and Wayne Bickler, ushers.

The newlyweds left for a brief honeymoon to Wisconsin following the reception at the William Albright home. They will be at home in Polo where the bridegroom is employed.

Miss Patricia Holland Bride of Richard Emery Lovett in Milton, Iowa

Mr. and Mrs. Henry O. Lovett, 20 East Drive were in Milton, Ia., Saturday to attend the wedding of their son, Richard Emery Lovett, and Miss Patricia Anne Holland, daughter of the John R. Hollands, Milton. The bride is speech and dramatics instructor at Dixon high school and Lovett is project engineer at the Reynolds Wre Division of the National Standard company.

The 10 a. m. single ring ceremony was solemnized against a background of pink and lavender gladioli at the home of the bride's parents. The Rev. Reynolds Murdock of the Milton Methodist church officiated at the wedding attended by members of the immediate families only.

Mrs. Max Davis, Winnebago, Minn. was her sister's only attendant and the bridegroom was attended by his brother, Don Lovett of Dixon.

Pink Nylon Gown

The charming bride wore a pink nylon afternoon gown with a corsage of white feathered carnations and stephanotis. She carried a white Bible. Mrs. Davis was attired in a gray afternoon dress. Her corsage was of white carnations.

Mrs. Lovett watched the ceremony wearing a white summer suit. To her shoulder was pinned a corsage of orchid gladiolus. The bride's mother selected an afternoon gown of red and white summer sheer. White gladiolus comprised her corsage.

A wedding breakfast honoring the newlyweds was served at the Manning Hotel, Keosauqua, Ia. The bride's selected colors were again repeated in the pink and lavender of the sweetpeas and astors on the table.

Attend Wedding

Among the guests at the wedding and breakfast were the grand-parents of the bride couple, Mrs. E. O. Lovett, Garden Grove, Ia., the bridegroom's grandmother and Mrs. William Petersen, Dixon and Mr. and Mrs. Frank Holland, Milton, the bride's grandparents.

Mr. Lovett is a veteran of World War II. A graduate of the University of Illinois he received a degree in Engineering Physics. The former Miss Holland received her masters degree in Dramatic art from the University of Iowa. She will continue with her teaching position at Dixon high school.

Upon returning from two weeks in Colorado the newlyweds will be at home at 817 East Fellows st., Dixon.

Attending the wedding with their parents were Misses Ruth and Mary Ann Lovett, Dixon.

Youth, Arrested as Speeder, Abuses Cops, Arrested Again

A 17-year-old Grand Detour youth, arrested on a reckless driving charge, was committed to jail 45 minutes later Saturday after he referred to Dixon policemen by an obscene name.

William Doctor was arrested first by Officers Bob McCoy and Frank Chapman after his car had severely damaged the one owned by William Hagedorn, Rt. 2, Dixon; at the intersection of Third and College.

Doctor, a repeated offender of traffic laws, was fined \$50 and costs by Justice Sterling W. Schrock.

But, when the youth called his father from the police station telling him of the arrest, he used the obscene name with reference to the patrolman who arrested him—and was promptly arrested again—this time for disorderly conduct.

On that charge Schrock set his hearing for next Friday at 2 p. m. and he was sent to the county jail.

Four other accidents were reported over the weekend.

Owner of Car Used in Police Chase Says He'll Drop Charges

John Nelson, who three days ago signed a warrant against Lloyd Kemp, 17, Rt. 3, Dixon, for stealing Nelson's 1934 Buick, told a reporter today he would "drop the charges."

Nelson, whose car Kemp and his cousin, William Kemp, 18, 416 Jackson av., used in the 28-mile gun-shooting chase with Dixon police, said that he hadn't "given permission" but still the youth hadn't "exactly stolen it."

He said he would explain his position when the two youths were scheduled to appear this afternoon before Justice Sterling W. Schrock.

If the stolen car charges are pressed against the younger Kemp, he will probably be bound over to the circuit court grand jury. If not, he still faces three other charges: running a stop sign, reckless driving and failure to have a motor vehicle license.

The two Kemps were chased by Dixon police, and four other squad cars, from the local downtown district to the dead end of the Ridge road onto Rt. 64 near Mt. Morris late Friday night. Nelson had signed the warrant early Saturday morning after the two had been arrested.

Lloyd Kemp is still being held in the county jail. William Kemp, who faces a probation violation charge, has been released in the custody of county court probation officer A. C. Handell.

U. S. Shipping Fleet in Sharp Decline in Year

WASHINGTON—(AP)—America's active cargo and passenger fleet has shrunk from 1,520 ships last Jan. 2 to 1,098 on July 1—a drop of 28 percent, the National Federation of American Shipping reported yesterday.

"The present threat of another world war points up the acute shortage of commercial passenger-carrying ships," the federation said. The passenger ship total, including the new SS United States, amounts to 51 ships of 15,623 capacity compared with 123 of 37,741 in 1939.

The sharp overall 1952 decline in the merchant marine was brought about mainly by reduced foreign aid exports, which reduced by 411 the number of government-owned ships operated by private shipping lines.

Knetzer Surrenders to Newspaper Man; Tells Story of Abduction by Marshal

CHICAGO—(A P)—The Chicago Herald-American said Robert L. Knetzer, former Edwardsville, Ill., automobile dealer who disappeared from the Springfield city jail June 17, had surrendered today to the Herald-American.

The newspaper, in a copyrighted story, said Knetzer will be turned over to federal authorities. It did not disclose his whereabouts at this time, however, but said he surrendered "to a reporter of The Herald-American."

The Herald-American said Knetzer told a startling story of what he said was his escape from four gunmen who he said took him out of the Springfield jail, on the pretext that one of them was a deputy United States marshal named "George Hulen."

Escapes Slayers

He said he escaped from his would-be slayers at Worden, Ill., in Madison county, by a flight over fields and through barnyards. He then hid out in barns, the Herald-American said, and had been hiding out since, working as a handyman and at odd jobs in various states.

The Herald-American quoted Knetzer as saying:

"I have wanted to surrender because I knew both the FBI and the underworld were looking for me. I have been a target not only of the underworld but of every FBI man in the country."

At the time of Knetzer's disappearance from jail, with the aid of the phony marshal he was serving an indefinite jail sentence imposed by Federal Judge Charles G. Briggles in connection with the automobile dealer's bankruptcy.

Knetzer was the leading figure in a multi-million dollar automobile sales scheme in 1947. Many who deposited money with him for new cars got neither the cars nor their money back. He went bankrupt with debts of 2 1/2 million dollars. He first was jailed for contempt of court in March, 1950. He was released at least eight times on fund raising trips, and escaped from custody of two special bailiffs once in St. Louis, last March.

Tells Story

The Herald-American said Knetzer told the following story of his disappearance from jail:

The man who took Knetzer from jail identified himself as "George Hulen." Knetzer never had seen him before. Hulen told Knetzer Robert Grant, U. S. marshal, wanted Knetzer taken to Peoria and that Grant would explain everything to Knetzer then.

Hulen took Knetzer to a Dodge four-door sedan at a filling station on the corner alongside the jail. Hulen shoved a gun against Knetzer's side and forced him into the car. There were two other men in the back seat and one in the front seat. One man hit Knetzer in the mouth with a gun and told him to shut up.

The men drove south on Route 66, and forced him from the car near the Lake Springfield bridge. Hulen said he was going to kill Knetzer.

Threatens Life

"Knetzer, you can't talk about people like . . . (naming two persons) and expect to go living," Hulen said. He added "they" were paying \$5,000 to have Knetzer killed.

Knetzer told the men he had \$75,000 buried near Worden, Ill., and that if they would let him get it, he would give them \$50,000 if they

Name Heirs of Amboy Estate

Letters of administration naming five heirs were admitted to probate this morning in county court in the \$13,000 estate of Mrs. Gertrude Reinboth, Amboy, who died in Amboy June 14.

The estate was valued at \$3,000 in personal property and \$10,000 in real estate.

Heirs named were: Robert A. Reinboth, a son, Amboy; Mildred June, Amboy; Wanda Farthing, Rock Falls; Wilda McMillon, Rock Island; and Kermit Reinboth, Brawley, Calif.

Convention

Out of the wide-ranging field of candidates there emerged at least one man with a convention strategy plan—Sen. Estes Kefauver of Tennessee.

Winner of most of the Democratic primaries and self-styled "people's choice" for the nomination, Kefauver appeared ready to shoot the political works on an effort to win the nomination by the fourth ballot.

Predict Stall

If his self-propelled bandwagon stalls—as many in opposing camps were predicting—it would—the top runners for No. 1 place on the ticket seemed to be 74-year-old Vice President Barkley and reluctant Gov. Adlai E. Stevenson of Illinois.

Stevenson, who repeated last night that "I just don't want to be nominated for the presidency," still was a hot prospect for a draft movement if the convention deadlocks.

On this point, the Illinois governor said: "You'd have to show me the deadlock first."

Jacob Arvey, Illinois national committeeman, put his views in these words:

"Gov. Stevenson couldn't turn down the nomination if it were a legitimate draft and if he agreed to the party platform."

Personals

Mrs. H. U. Bardwell and Mrs. Clara Owen Johnson, daughter, Margo and son, Joe, spent the weekend in Barrington at the home of Atty. William Bardwell. They all attended the Saturday evening performance at Ravinia.

Pfc. Wallace M. His address is Pfc. Wallace M. Deets NG 26330565; Hdq. Hdq. 129th Inf. 44th Div.; Camp Cooke, Calif.

Rev. Vernon L. S. Jones returned to Northfield, Minn., Sunday afternoon. He came to Dixon to conduct services at the Episcopal church and will also return next Saturday. The Jones family is vacationing in Northfield.

Mr. and Mrs. Peter J. Terres, Harmon, have as their guest Mrs. Margo Schack, Chicago. Mrs. Schack and Mrs. Terres were co-workers at the Avot Point Pencil company, Chicago, before Mr. and Mrs. Terres moved to Harmon.

Miss Mollie Duffy has returned from attending the two week conference of National Elementary school principals held this year at the University of Michigan, Ann Arbor.

Miss Ann Eustace continues to be very ill. She has been confined to her bed for some time.

Barkley Strong

Despite a "this hurts me more than it does you" kick in the pants from organized labor leaders, Barkley continued to gather undercurrent strength.

George Harrison, AFL vice president, and Jack Kroll, director of the CIO's Political Action Committee, said the unions can't support Barkley because of his age.

President Truman could turn loose some bolts of undetermined power. He kept his preference for the nominee secret even from his Cabinet members, although Thomas J. Gavin of Kansas City, his convention alternate, professed to know. Gavin wasn't talking.

Biding Time

The feeling here seemed to be that Truman is biding his time.

Known Dead

women's prison, which was reported so hard hit that most of its cluster of two-story buildings are unusable. A call went out for tent in which to house the 327 inmates, including all of California's women convicted of felonies. The prisoners were reported panic-stricken but unhurt.

Seismologists at California Institute of Technology put the quake's center on a branch of the famed San Andrews Fault, which cuts through the mountains near Gorman, and fixed its distance at 70 miles north of here.

Topped by One

Its strength in this century is topped only by the San Francisco quake in 1906. But in terms of damage and loss of life, the Long Beach quake of 1933 was far worse. It killed more than 100 and caused \$40 million in damage. And the 1925 Santa Barbara quake killed 11 and caused 10 million loss.

Seismologists said only the fact that today's shock centered in the lightly-populated mountains kept the toll from being much heavier.

The rolling motion, in contrast to the wrenching jolt which accompanies some quakes, was credited with minor damage in the heavily populated metropolitan Los Angeles area.

Lobbies Crowded

Los Angeles hotel lobbies were crowded by residents in their night clothes. Lights sprang up in houses up and down every block. Dogs howled in fear and at Redondo Beach, Mrs. Eleanor Howell said she was awakened by a dog, running outside the house with a wailing cry, only a moment before the quake hit.

Residents of the San Fernando Valley, home of many movie stars, reported the quake sloshed water out of their swimming pools. Broken dishes were general, cracked windows were common in a band from here to a point north of Fresno, and extending to Santa Barbara on the coast.

Dixon Woman Asks Divorce

A Dixon woman has filed suit for divorce here charging that her husband, Melvin Cory, hit her and knocked her down in the presence of their young child.

Courtney Cory, 623 Sterling av., also was granted an injunction against her husband to restrain him from entering their Dixon home or molesting her.

They were married Dec. 30, 1938, in Clinton, Ia., and separated July 18, 1952.

She also charges that on one occasion he hit her and blackened her eyes.

She asks for the custody of their child and alimony and child support.

putting on pressure to get the kind of "Fair Deal" platform he wants and putting off making up his mind finally until the situation shakes down somewhat.

Whether Truman could swing the nomination remained doubtful, but his influence was being felt keenly in the fight over civil rights and the seating of delegates from Southern states who have refused to pledge in advance that they will support the ultimate nominee.

Residents of the San Fernando Valley, home of many movie stars, reported the quake sloshed water out of their swimming pools. Broken dishes were general, cracked windows were common in a band from here to a point north of Fresno, and extending to Santa Barbara on the coast.

How Much Do You Earn a Week?

If you receive a big salary, you may be very proud of yourself, but unless you save a part of that salary regularly, your prosperity isn't going to endure.

The Dollars You Save

are the dollars that count . . . the dollars that mean continued prosperity and peace of mind.

Dixon National Bank is proud of the fact that so many people make this their first stop on every pay day—

We invite you to join them.

Red Dean Goes To Pulpit With Germ Charges

CANTERBURY, England—(AP)—Dr. Hewlett Johnson, the "Red" Dean of Canterbury, last night carried his charges of American germ warfare to the pulpit of Canterbury Cathedral, the 1,000-year-old main seat of the Church of England.

A small, elderly woman tried to bar the pro-Communist dean from speaking.

"I defy you to go into the pulpit," she said, but he brushed her aside. Then, in a 40-minute sermon, he repeated his allegation that on a recent trip to China he saw proof U. S. planes have

dropped germ-laden bombs in China and North Korea.

The charges have been denied by top U. S. British and U. N. authorities.

Infestation Of Earworms Above Normal

CHAMPAIGN, Ill., (AP) — A state entomologist says earworm infestation on Illinois' corn crop are heavier than normal and attacks on the state's sweetcorn crop may become severe.

In the weekly bulletin of the state Natural History Survey, and the University of Illinois, entomologist H. B. Petty also said corn borer development is becoming more rapid.

Borer egg laying has started in the East St. Louis area southward and occasional evidence of corn borer pupae is being found in Northern Illinois.

Petty said insects damaging the corn crop will reach the peak of

pupae stage toward the end of the month.

Amyworms, which have attacked some field of oats, timothy and other grass crops as well as corn in Northern Illinois, can be controlled by toxaphene treatment, Petty said. The chemical should not be applied to forage crops within four or five weeks of harvest.

Grasshopper infestations in Southern Illinois can be controlled by chlordane, aldrin or toxaphene, Petty said.

Reds Stronger But Unable to Sustain Drive

WASHINGTON, (AP) — Gen. Mark W. Clark says the Reds have doubled their air-ground strength in Korea during the truce talks but could not sustain a major offensive for more than two or three weeks.

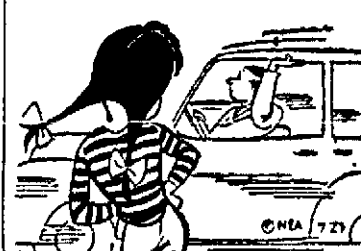

The United Nations commander reasoned:

1. The Communists have plenty of supplies but are incapable of moving them in the face of U. N. air attacks.
2. The Althes—without increasing their numerical strength during the past year—have been trained intensively and improved their defenses from front to rear to meet any eventuality.

"The enemy buildup has been quantitative while ours has, for the most part, been qualitative," Clark said. "We are confident that we can make any future enemy offensive the most costly he has yet undertaken."

The Far East commander, in a copyrighted interview in U. S. News and World Report, a weekly news magazine, said the Communists since June 1, 1951, have swelled their ground strength from half a million to nearly one million men and their air power from 1,000 to 2,000 planes. Half the planes, added, are estimated to be jets.

Veep's Schedule to Test Stamina of 74-Year-Old

CHICAGO—(AP)— Vice President Alben W. Barkley, the senior entry in the Democratic presidential sweepstakes, got another chance to prove his stamina as the big convention opened today.

The 74-year-old "Veep" mapped a busy day to be climaxed by a trip out to Convention Hall for the night session. He is a delegate-at-large from Kentucky.

Even before he wound up a round of television appearances yesterday with a final telecast just before midnight, he scheduled a tight program of campaign activities for today.

A man who says he never gets tired, Barkley's starter was an early morning breakfast conference requested by 10 AFL and CIO leaders.

The labor union spokesmen said yesterday their organizations cannot support Barkley because of his age.

Following the labor parley, the vice president set aside 45 minutes for conferences with members of his staff, including his campaign manager, Sen. Earle C. Clements of Kentucky.

During the rest of the day, he faced photographers, radio broadcasts and possibly additional television appearances.

In between, the vice president planned conferences with delegates who might be influenced to vote for him on the first or later ballots.

Clements said last night he hopes Barkley will win the Democratic nomination by the third ballot.

Suspects Claim Bag of Cash Is Life Savings

DALLAS—(AP) — Two armed men with \$1,300 in a leather bag were indicted when police arrested them, sleeping in an automobile at 4 a. m. yesterday.

"This is our life savings," one of the men said. "It's against the law to save money?"

"We have these pistols to protect our savings," said the other. They were a 25-year-old cab driver and a 19-year-old plumber's helper, both from Mineral Wells, Tex.

Officers planned to return them to Mineral Wells today to face possible charges that their "life savings" were gathered in a Mineral Wells auto store burglary last Tuesday.
